The above lesson schedule for *Beginnings for Beginners: Foundations from the Early Chapters of Moses' Discipleship Manual, Part 2* attempts to study Genesis 5-11 through the lens of the setting in which Moses would have written them – as a discipleship tool for the infant nation of Israel. The first portion of the series covering Genesis 1-4 is also available separately.

As we taught through the material, we often spent more than a single week on each lesson. You may find it helpful to do the same.
